

Corrections to labelling of the Devils Hole project

The Title of the project, visible when opening the file runs: “Devil’s Hole, Death Valley National Park (Nevada)”. All good, but please remove the apostrophe in Devil’s (should be “Devils Hole”).

(1) “Parking lot” – please make it “Service parking lot” (the Park may not be happy if someone understood it as a public parking lot)

(2) “Pergola” – please change to “Observation Deck”

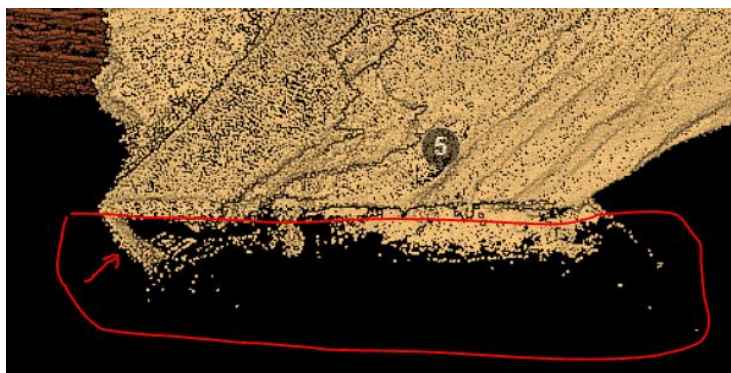

(3) “Devils Hole II entrance” – please change to “Devils Hole II pergola”

(6) “Excavated cavity” – please change to “Devils Hole Prospect cave”

Point clouds: Do you think it is possible to remove part of the cloud at the bottom (water level) of Devils Hole II, as shown? These are artefacts (I presume, reflections from water). They create a false impression that the cave’s hanging wall changes orientation abruptly, which is not the case.

I guess, the same cleaning (cut everything off by a horizontal plane at the water surface) may be needed also for Devils Hole proper, as there seem to be points located below the water there as well:

Best, Yuri
